SUBJECT: ADDITIONAL MEDICAL APPROVED CENTER OF EXCELLENCE FOR
COCHLEAR IMPLANTS PROVIDING SERVICES FOR CCS ELIGIBLE
BENEFICIARIES

BACKGROUND

Cochlear implantation has been an approved method of treating profound, bilateral sensorineural hearing loss since the mid-1980's. Cochlear implants have been a benefit of the Medi-Cal Program for adults since 1996 and a benefit of the CCS Program since September 2000. Numbered Letter N.L.: 09-0900, identifies the Medi-Cal "Centers of Excellence" approved to perform cochlear implants on CCS beneficiaries under 21 years of age. The purpose of this supplement is to add an additional Medi-Cal approved Cochlear Implant Center authorized to provide services to CCS beneficiaries. The previously approved centers are:

- Children's Hospital, San Diego
- Children's Hospital, Oakland
- House Ear Institute, Los Angeles
- University of California, Davis Medical Center (UCDMC), Sacramento
